NIAGARA BROADCAST NETWORK

IN THE NEWS:

-B-roll has been consulting and installing to get the Niagara Broadcast Network up and running. The Niagara Broadcast Network is a 24/7 streaming internet network. The network will be delivering LIVE programming including news, current events, political happenings and more. The NBN is also an excellent outlet for businesses to get the word out and advertise their products and services!

-B-roll recently completed another HDCAM/F900 shoot for Associated Television International. The shoot consisted of interviews and b-roll for a nationally syndicated show, "Hero Awards".
